THE MUSIC CLUB.

The meeting of the Statesboro Music club at the home of Mrs. W. H. Sharpe was a most delightful and helpful occasion. Mrs. W. H. Teasdale, of Savannah, gave a talk to the club on "Musical Education in America." Mrs. Teasdale handled her subject in an admirable way, showing that musical education in America dates back two hundred years; that earliest educational advances in music began with singing schools, which were the outcome of endeavor to improve psalm singing. The first record of musical instruction in the South dates about 1720 in Charleston, S. C. Following singing schools came musical conventions, then musical festivals, then opera and oratorio. After great persistence on the part of Boston musicians, music was introduced into the public school curriculum of Boston. Since that time, music has been accepted everywhere as a regular part of the course in public schools.

Mrs. Teasdale emphasized the fact that musical advantages and opportunities in America are recognized as superior to any other country in the world. The Statesboro Music Club is to be congratulated upon having this splendid educator and woman with them. The one regret is that the full membership was not present to hear this fine lecture and uphold the musical reputation of this city.

BOX SUPPER.

There will be a Christmas tree and box supper at Brannen & Groover's on Monday, Dec. 22, beginning at 7 o'clock. Plenty of good music. Everybody invited.

WHAT IS THRIFT?

The Government asks us to make saving a happy habit, to make 1919 a year of thankful thrift. Uncle Sam defines thrift as:

Wise Spending—
Avoidance of Waste—
Safe Investment—

Easy to be happy and do all these things. Their doing gives reason for thankfulness and helps the Government finish the victory. Easy to save with Thrift Stamps and War Savings Stamps—surely also safe investment. Our thrift service is at your service.

STATE SCHOOL LAW TO BE ENFORCED

COUNTIES FAILING TO SEE TO ITS ENFORCEMENT FORFEIT SCHOOL FUNDS.

Duty of Parent and Guardian.—Enrollment and Attendance at School. Excuses of Absences.

Sec. 171. Every parent, guardian or other person having charge and control of a child between the ages of eight and fourteen years, who is not exempted or excused as herein-after provided, shall cause said child to be enrolled in and to attend continuously for six months of each year a public school of the district or of the city or town in which the child resides, which period of attendance shall commence at the beginning of the first term of said school in the year. Such attendance at a public school shall not be required where the child attends for the same period some other school giving instruction in the ordinary branches of English education, or has completed the seventh grade of school, work as prescribed by the State Board of Education, or where, for sound reasons, the sufficiency of which shall be determined by the board of education of the county or of the city or town in which the child resides, the said board excuses temporarily the child from such attendance, such boards authorized to take into consideration the season for agricultural labor and the need for such labor, in exercising their discretion as to the time for which children in farming districts shall be excused. Provided, that no guardian shall be compelled to send such child or children to school out of any other than the funds belonging to said ward or wards. Temporary absence of any child enrolled as a pupil may be excused by the principal or teacher in charge of the school, because of bad weather, sickness, death in the child's family, or other reasonable cause.

Penalty for Non-Compliance.—Notice of Suspension of Punishment.—Notice of Suspension of Punishment.

Sec. 172. Any parent, guardian or other person who has charge and control of a child between the ages of eight and fourteen years, who willfully fails to comply with the foregoing requirements shall be guilty of a misdemeanor, and on conviction thereof shall be punished by a fine not to exceed ten dollars for the first offense, and not to exceed twenty dollars for each subsequent offense, said fines to include cost; but the court trying the case may, in its discretion, suspend enforcement of the punishment, if the child be immediately placed in attendance at a school as aforesaid, and may finally remit the same if such attendance has continued regularly for the number of months hereinbefore prescribed for attendance. School attendance may be proved by an attested certificate of the principal or teacher in charge of the school. No person shall be prosecuted for violation of the foregoing requirements unless the board of education of the county of municipality in which the person accused of such violation resides shall have caused to be served upon the accused, at least ten days before prosecution, a written notice of the charge with the name of the child to which it refers. Any person so notified, not previously convicted of violation of this act as to the child referred to in said notice, may prevent prosecution on the charge set out therein, by giving, at any time before such prosecution is instituted, a bond in the penal sum of fifty dollars payable to the ordinary of the county, with security to be approved by the ordinary, conditioned that the said person shall thereafter faithfully comply with the requirements of this section as to said child. Each day's wilful failure of a parent, guardian or other person in charge and control of a child as aforesaid, after the expiration of ten days from such notice, to cause the child to attend school, when such attendance is required by this section, shall constitute a separate offense. In prosecutions under this section the exemptions and excuses herein provided for shall be matters of defense to be established by the accused, and need not be negatived in the indictment or accusation.

Duties of Board of Education and Teachers.

Sec. 173. It shall be the duty of

CALL IS ISSUED FOR MEETING OF DEMOCRATS

The formal call for a mass meeting of the Democratic voters of Bulloch county, issued by County Chairman Howell Cone, appears in this issue.

As was forecasted some weeks ago in this paper, the date is set for Monday, December 4, which is only a week away.

Pending the fixing of the time for the primary, there is considerable interest felt in the matter by the candidates and their friends. The feeling is general that an early primary will be called. That is deemed wise because of the fact that the campaign began early and the field is already about filled with active candidates.

There is believed to be little possibility that there will be other entries in the field for any of the county offices, though there has been more or less discussion of the possible candidacy of one or two others. Among those talked of are J. Z. Kendrick for sheriff, who is understood to have about definitely concluded to remain out of the race; J. E. Brannen, who was spoken of as a possible candidate for county school superintendent, and Dan R. Lee, who is said to be considering the race for tax collector. There has also sprung up quite a strong talk in favor of Mr. Rawdon Olliff for clerk of the superior court, and his friends are said to be urging the matter upon him with earnestness. Either of these gentlemen may yet get in the race, but the possibility of others is not regarded seriously.

Saturday night, December 27, will be a memorable time in the musical history of Statesboro. On that night, Skogvarg, the great Danish violinist, comes to Statesboro and will play at the court house under the auspices of the Christian Endeavor society.

THIS IS NOT A LYCEUM NUMBER. LYCEUM TICKETS WILL NOT ADMIT TO THIS PERFORMANCE.

the county and municipal boards of education to investigate as to the attendance and non-attendance of children required by this section to attend the schools under their supervision, and it shall also be their duty to institute or cause to be instituted prosecutions against persons violating this section. It shall be the duty of the principal or teacher in charge of any public school, in which pupils between the ages of eight and fourteen years of age are instructed, to keep an accurate record of the attendance of such pupils, and at the end of each month to make a written report of the same to the Board of Education having supervision of the school, and to note therein excused absences and the reasons for the same.

Attendance Officer.

Sec. 174. Each county or municipal Board of Education shall employ an attendance officer whose duty it shall be to report to the Board of Education failure of attendance on the part of pupils between the ages of 8 and 14 years. For this service these officials shall be paid not less of recovery thereof, be paid into the county treasury and become a part of the school fund of the county.

Law Effective, When.

Sec. 175. The provisions of this Act shall become operative on the first day of January, in the year nineteen hundred and twenty.

Publishment of Law.

Sec. 177. It shall be the duty of the Board of Education of each county, at least four weeks before the first day of January following the adoption of this section, to cause this section to be published in a newspaper in the county, if there be one, and to cause copies of this section to be posted at the court house door and at the public schools thereof, and one dollar more than three dollars per day during the time employed, and said payments shall be paid, so far as possible, from the fees collected. The balance due shall be paid from the school funds of the county or local system. Any Board or local school system failing to comply with this law for attendance of children shall not be entitled to receive funds from the State treasury until it is shown that said attendance officer has been appointed and has entered upon his duties.

Fines and Forfeiture a Part of the School Fund.

Sec. 175. All fines imposed hereunder and all sums required to be paid as penalties under bonds given under this section, shall, after payment of the costs of prosecution and

QUESTIONS TO ANSWER THE CENSUS TAKER

INQUIRIES ARE DEFINED BY AN ACT OF CONGRESS AND ARE TO BE ANSWERED BY ALL.

The census is required every ten years by the Constitution of the United States and by Act of Congress. The date named for beginning the 1920 census is January 1, but the "census day" is January 1.

The census inquiries are defined by Act of Congress.

The information gathered is to be strictly confidential.

Census information cannot under any circumstances be used as a basis for taxation, nor can it be used to harm any person or his property.

It has nothing whatever to do with detection, arrest, prosecution or punishment of any person for any violation of any law.

Questions to be asked are as follows:

Age at last birthday.

Each person ten years of age and over will be asked whether he is able to read or write.

Each person will be asked his birthplace as well as birthplace of father and mother.

If foreign born, the date of coming to the United States will be asked, and if naturalized, the date of becoming a citizen; also the mother tongue or native language.

Each head of a family will be asked whether his home is owned by him or rented, or if owned, whether the home is mortgaged or free of debt.

Each person will be asked his occupation, and whether he is an employer or employee, or is working on his own account.

The answers to the above questions will be used by the census takers to determine the population of the country, and to determine the number of persons under its protection.

Each occupant of a farm will be asked how many years, if any, he has worked on the farm; how long, how many years, if any, he has farmed as an overseer.

Whether he owns or rents, or partly owns and partly rents his farm, or whether he operates the farm for others as a manager or superintendent.

How many acres in his farm? The number of improved acres? Unimproved acres and number acres of woodland?

Total value of farm? Total value of buildings? Value of implements and machinery on farm?

Whether farm is mortgaged. If so, the amount of mortgage.

Expenses for feed, fertilizer and labor in the year 1919.

Several questions concerning artificial drainage of his farm.

Number of cows, horses, sheep, chickens, and other domestic animals on the farm January 1, 1920.

Quantity and acreage of crops grown on the farm in 1919, including fruits and vegetables.

Quantity of milk and butter sold off the farm during the year 1919.

Acreage of timber land on farm and value of forest products.

Correct answers to above questions are of the utmost importance. Copies of the agricultural schedule can be had in advance by any farmer by writing to Director of Census, Washington, D. C.

A farm for the purpose of the census includes all the land cultivated by a single farmer either by his own labor alone or with help of hired labor. It may be in two or more separate tracts, but it is all one farm if it is all under one management.

The land cultivated by a shareholder or cropper, or by a cash renter, constitutes a separate farm and is not to be counted as the owner's farm or included in it, but should be reported in the name of the tenant.

Census enumerators will carry identification cards as well as the written commissions. These will be shown promptly by enumerators on request by any person.

In all cases where persons are suspicious of impostors these cards may be demanded. It is against the federal law to impersonate a census official, and the impostors should be reported to the authorities.

The Act of Congress providing for the census, makes it the duty of all persons to furnish the information asked for by the enumerators to fill

NO CHURCH FIGHT IN PORTAL ELECTION

CITIZENS UNITE IN STATEMENT THAT DIVISION WAS NOT OF DENOMINATIONAL LINES.

The Times is pleased to give space to a correction of the statement in last week's issue concerning the lines upon which the people of Portal were divided in their recent mayoral election. The statement which gave the information upon which our report was based was Mr. Rat Riggs, who lives at Portal and who took a lively interest in the campaign. So far as we are enabled to judge, Mr. Riggs was motivated in the campaign by a desire to see the city of Portal better governed, and he has since assured us that the published statement was correct so far as he was able to judge, which is proof positive that men are prone to disagree about even the most common-place matters in politics. We are changed in only one particular, in that we have since learned that Mr. Riggs is not a member of the various denominations of Portal, and certainly the Times is glad to publish the correction which has been prepared and requested published by the leading citizens, representing both factions in the late city election.

The statement is as follows:

Portal, Ga., Dec. 23, 1919.

D. B. Turner, Editor, Bulloch Times, Statesboro, Ga.

Dear Sir:

Your article which appeared in the Times of last week, with reference to the mayoral election, has done the people of Portal a great injustice, and the undersigned citizens of Portal, representing all the churches, request that you publish a correction of said article in this week's issue of your paper, and use their names in said correction as authority for your action. We request, also, that you mention in this correction the name of your informant as to the first article.

In order that you may put the people of Portal in the proper light, we suggest that you note the following facts:

First. Mr. Daughtry had never before had opposition.

Second. That the Missionary Baptists and the Primitive Baptists did not combine against Mr. Daughtry in the Methodist, but men affiliated with different denominations voted for both candidates.

Third. That with the exception of two or three men, the matter of churches did not enter into the question.

Fourth. That the statement that "even the women of Portal engaged in the contest" is without a word of truth in it, as the women had nothing to do with it.

Fifth. That there is as fine a spirit existing among the Portal churches as can be found anywhere in Bulloch county.

We will thank you to give this article the same prominence as you did the former one.

Respectfully,

W. S. TRAPNELL, E. DAUGHTRY, S. L. GUPP, W. E. PARSONS, W. J. DAVIS, E. V. MINCEY, Z. T. DELOACH, B. L. HENDRIX, J. A. GROVENSTEIN, J. L. LEE.

ARRANGEMENTS MADE TO SEND OUT WHISKY

FORTY THOUSAND BARRELS OF "REFRESHMENTS" TO GO TO FOREIGN COUNTRIES.

Louisville, Ky., Dec. 22.—Arrangements have been made between Kentucky and New York interests to export most of Kentucky's whisky to France, Cuba and Germany, according to Edmund H. Baker, representative of the Louisville Public Warehouse Company.

Under the plan, Mr. Baker said, the first shipment to Paris will begin this week and will include about forty thousand barrels of "young" whisky or about 1,400,000 gallons. Special permission to import that liquor was said to have been granted by the French government.

Arrangements for the liquor shipments, which, according to Mr. Baker, will be continued until all of the 35,000,000 gallons of liquor is out of Kentucky, have been made by the Louisville Trust Company and the Guaranty Trust Company of New York, with Mr. Baker as intermediary for whisky interests.

Ottawa, Dec. 22.—Reports were current today that Canadian liquor dealers might attempt to "salvage" many of the hundreds of thousands of gallons of "red liquor" which must be shipped from the United States before the federal prohibition amendment becomes effective there January 16.

Whether dealers would seek American markets, it was said, depended chiefly on whether they considered it likely provincial acts prohibiting the sale of liquor would be repealed by the various governments. Repeal of Dominion war-time liquor legislation which prevented importation of foreign liquor, manufacture of liquor and importation which created a peculiar situation in which liquor may be freely imported, but not sold because of prohibition acts effective in every province except Quebec. There sales are restricted to beer and wine.

NOT SO OLD AS SHE LOOKS.

Women do not like to look older than they really are. Neither do men. Excesses are subject to kidney trouble, and kidney trouble makes the middle aged look old. Foley's Kidney Pills promptly restore weak, over-worked or disordered kidneys and bladder to healthy condition and banish lameness, aches and pains.—Bulloch Drug Co.

Helps Sick Women

Cardui, the woman's tonic, helped Mrs. Wm. Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to walk, and I had such a weakness and dizziness, and the pains were very severe. A friend told me I had tried everything, and I said, 'I did, and soon saw it was helping me.' After 12 bottles, I am strong and well."

TAKE

CARDUI

The Woman's Tonic

Do you feel weak, dizzy, worn-out? Is your lack of good health caused from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered—it should help you back to health.

Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

AMERICA LEADS WORLD
IN CROP PRODUCTION

Washington, Dec. 6.—The American farmer leads the world in individual production of crops, Secretary Houston, of the Department of agriculture, asserted today in his annual report. While countries such as Belgium, under intensive farming, get a higher acreage yield, he said, taking both acreage and yield per acre into account, the American agriculturalist produces two and a half times as much as his Belgian and German rivals, 2.3 times as much as the British farmer, 3.2 times as much as the French, and more than six times as much as the Italian.

The result of this and of the American farmer's war work is shown in the 1919 American crop production, placed at three times greater in value than the average annual output during the five-year period preceding the European war. The aggregate value of all crops this year is placed at \$15,873,000,000, as compared to \$14,222,000,000 in 1918 and an average of \$5,829,000,000 during the five-year period.

Live stock on farms this year was figured at \$8,830,000,000, as against \$8,284,000,000 in 1918.

The average yield for all crops for the decade ending in 1918 is about 16 per cent greater than the average for the decade ending with 1890, the report said. The average rate of increase for the past twenty-five years is about one-half of one per cent a year.

Estimates in the report put the 1919 wheat production at 918,471,000 bushels and corn production at 2,910,250,000 bushels. Cotton is expected to reach 10,696,000 bales and tobacco 1,316,553,000 pounds.

"The farmers of the nation in 1919 planted an acreage in leading cereals greater by 33,000,000 than the pre-war annual average which, it is estimated, will yield 635,000,000 more than the pre-war average," Mr. Houston said of war work on farms. "They increased in number of milch cows over 1914 by 2,700,000, and other cattle by 8,500,000, of swine by 16,700,000,000 and of horses and mules by 1,000,000, or a total of 28,900,000."

"The planting operations of the year began before the fighting ceased and the call was still for more wheat. The department suggested a maximum fall acreage of 47,206,000 acres, an increase of 12 per cent over 1918. There was actually planted 49,261,000, the largest acreage in the nation's history, 9,960,000 acres more than in 1918."

"The spring wheat acreage was 22,593,000, while the winter and spring plantings combined amounted to 71,854,000 acres, or 7,200,000 more than the preceding record."

"It is estimated that the yield will

exceed that of 1918 by 1,000,000 bushels and will be the nation's second record wheat crop. The estimated corn crop of 2,910,000,000 bushels will be 300,000,000 greater than that of 1918."

The nation can further expand its output of commodities by cultivating unused tillable land, estimated at more than 60 per cent of the total, the report states. Expansion is limited, however, by the supply of capital and labor.

No step to promote farmers' co-operative associations along the right lines, should be omitted, the secretary said. It is estimated that these organizations market annually approximately \$1,500,000,000 worth of commodities.

Included in Mr. Houston's recommendations the following:

The building up, primarily under state law, of a system of personal credit unions, for farmers whose financial status and operations make it difficult to secure accommodations through the ordinary channels; expansion of facilities or aiding in marketing, especially extension of the market news and food products inspection services; continuation of federal participation in road building through the appropriation of \$100,000,000 for each of the next four years; regulation and control of the stockyards and packing houses; federal legislation to protect consumers against adulterated feeds and fertilizers; increased state support for rural school and more definite instruction as to rural problems and conditions; legislation to improve rural sanitary conditions and provide hospitals and medical facilities.

ZENUS FORDHAM CELEBRATES
HIS HUNDRETH BIRTHDAY

Dublin, Dec. 12.—Zenius Fordham, this county celebrated his 100th birthday today at the home of his daughter, Mrs. T. J. Perry, a few miles from Dublin. About 100 people, almost all of whom were either his direct descendants or had married into his family were present for an old fashioned picnic dinner served on a long table in the yard.

Nine living children of Mr. Fordham were present, also a host of grand children and great-grand-children. His descendants number nine children, sixty-two grand-children, eighty-seven great-grand-children and twenty-eight great-grand-children. These in addition to son-in-laws and daughters-in-laws. He has been on a farm all of his life and for thirty years had held a family reunion on his birthday. He served in the war of the sixties, farmed until not so many years ago, and came to Laurens about seven years ago to live. He is in good health except in failing eyesight. It is estimated that he is kin to at least half of the people in Laurens county so large is his family connection. He had a sister who lived to 102.

THOUSANDS FOOLED
AS GLOBE ROLLS ON

THE PROPHECY THAT DISASTER WOULD COME WAS SPREAD BROADCAST AND MANY BELIEVED IT.

New York, Dec. 17.—Astonishment was expressed by the superstitious when the world did not come to an end today.

The ominous position of the planets had been press-agented and some astrologers and persons versed in witchcraft had maintained that at the precise moment when the major leagues of the solar system formed themselves in a straight line with Neptune, Saturn, Jupiter, Mars, Venus and Mercury on one side of the sun and Uranus on the other, the earth, which had moved four or five solar paces to the front of the line, would behave like the one-horse shay.

Scientists scoffed the idea, but superstitious ones recalled having lighted three cigarettes with one match, or having walked under a ladder or having done in recent historic times one of the thousand and one other things known far and wide as omens of evil days.

Students at Porto Rico are reported to have been so unfavorably impressed with their chances for continuing life yesterday, that they asked for a holiday to prepare for the worst. Harold Jacoby, professor of astronomy at Columbia, intimated that their actions might have been due to the desire of youth everywhere to have a holiday. He and many other scientists maintained that the effect upon the earth of the planetary alignment would be nil.

Astrologers have predicted the end of the world on somewhat similar occasions for centuries. As early as 1186 the world escaped one of their threatening cataclysms. Disappointment at the escape did not prevent Stoffer from predicting an universal deluge for the year 1524, a year, as it turned out, which was distinguished for drought.

Mother Shipton, the "Witch" of Endor times, who was credited with being equally sure that four hundred years after her time, in 1881, to be exact, the world would come to an end. The prediction caused much agitation in England when the date she set arrived. Thousands of persons deserted their homes and went out into the fields to wait annihilation.

Various religious cults have made a specialty in more recent years of specifying an hour as the earth's last, setting forth scriptural or pseudo-scientific arguments in support of their contentions. Prof. Albert F. Porta, a meteorologist, is given credit for first thinking up today's catastrophe.
